The brother who opposed him stays on the battlefield for all to see, “No one will honor him with burial or lamentation, but will leave him unburied, a corpse for birds and dogs to eat, a fearful sight of shame.” “Creon forbade anyone to bury him under penalty of death. Antigone, who is engaged to Creon’s son, decides to bury her brother anyway. The king then has her sealed in a cave to starve to death, absolving him of direct responsibility for her death. Creon’s son takes his own life desperately. The parallels between the Classic Antigone and Roy-Bhattacharya’s Clock are obvious, although some similarities are metaphorical, while others are real. Nizam’s dead brother is left to be used by the government’s “birds and dogs”, and although Nizam is not sentenced to death, her actions could be interpreted as a de facto death sentence. Roy-Bhattacharya titles Nizam’s narrative “Antigona”, and that of Tajik army interpreter Masood, “Ismene”, the name of Antigona’s sister. Masood understands Nizam’s search to recover his brother’s body. However, he tries to reason with her to abandon her demands, just as Ismene tries to convince Antigona of her recklessness. The structural similarities of the two stories also merit scrutiny. AntÃgona is a play and is confined to a particular setting; there is no narrator, the audience only knows the thoughts of the characters through their voices. Roy-Bhattacharya uses the first-person narrative of multiple characters to create a similar structure in his prose. However, his use of dream sequences allows us to penetrate the psyche of the soldiers in a way that the work of Sophocles cannot. Sophocles uses “choirs” to provide background on the drama and to serve as a pseudo-consciousness for CreÃ3n and its nu nu reel arap Ãuqa cilc zah ogeul y ,sttesuhcassaM ed aÃgolonceT ed otutitsnI led socisi¡Ãlc sol ed bew oitis le ne selcof³ÃS ed anogitnA al ed aenÃl ne atiutarg n³Ãicide al a ozatsiv nu ahce ,omsim it rop sotxet sod sol rarapmoc ne odaseretni s¡Ãtse iS From The Watch in Bookbrowse. One of the main themes of the famous Antisteric theater work of Sí³focles is the sense of justice. It is possible to note that the work focuses on a moral question like true justice. Antishar is the agent of morality in the work while trying to do things well and bury her brother who deserves to be buried (like his brother who is equally guilty). The burial of polynices becomes a question of morality and justice when he believed he decides that the brother of Polinices, Eteocles, has the right to be buried according to all the laws of that time. Therefore, it is clear that two equally guilty people, who killed themselves among Sã, receive a different treatment. Antister is the one that gives life to moral principles. The young woman says, "however, for the wise I had reason / honor" (Fofocles 42). She understands that I believe is acting immorally since he punishes a man for a crime while he does not punish the other who commits the same crime. The young woman understands that this cannot be correct and pollinices must also be buried. Antishone emphasizes that she breaks the law that is immoral and created by a man, since there is the law of justice established by the divine forces (Sophocles 42). She appeals to the superior forces and the law of the gods. Notably, she admits that no man can be truly moral since the gods can remain absolutely fair. The sister understands that she is the only person who can restore justice. It is necessary for alar Antishar is the most remarkable character that is a symbol of the work. Antister becomes a symbol of justice and morality. She becomes the moral agent that tries to restore justice. She is a Cariã osa sister.
